

ROADWAY TO YOUR SAVINGS & CARBON EMISSIONS REDUCTION

WITH SOLAR PV PROJECT

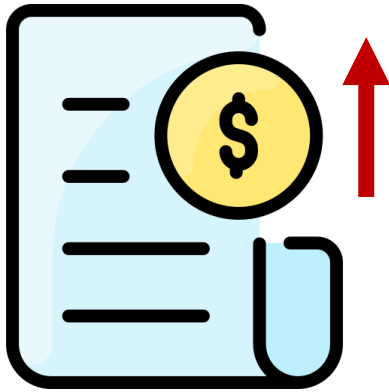

A solid yellow vertical bar is positioned to the left of the main title.

CHALLENGING PROBLEMS

THE COMMON PROBLEMS EVERYONE ENCOUNTERS

CHALLENGING PROBLEMS

HIGH ELECTRICITY BILLS

- Fluctuated Rate and Price
- Decreasing Profits

GRID FAILURE

- Poor Grid Supply Stability
- Dependable Power Source

ENVIRONMENT FOOTPRINT

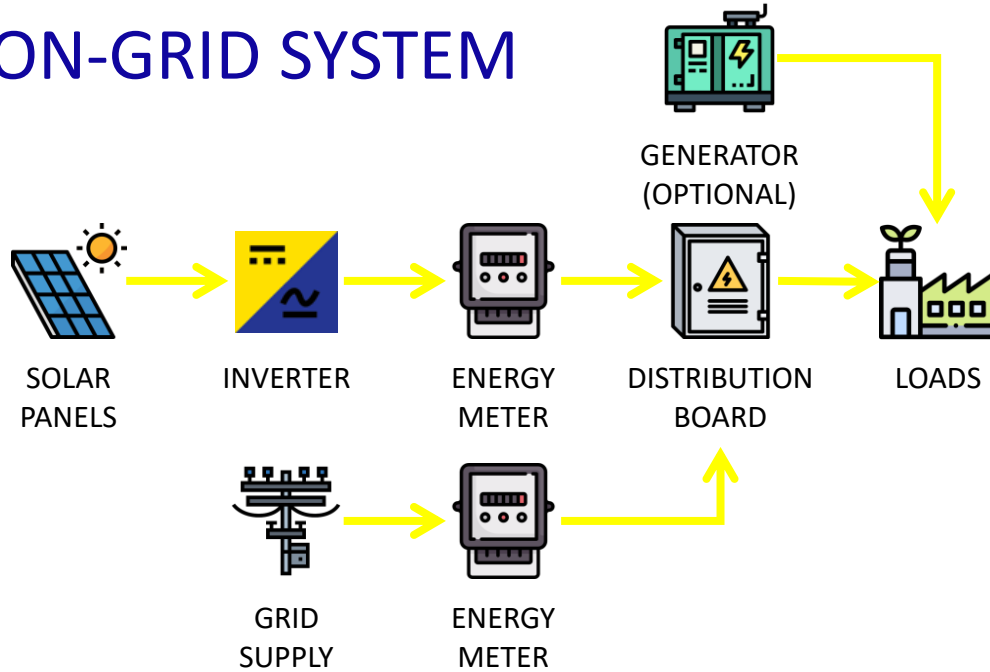

- CO2 Emissions
- Non Compliant with internal & External Requirements

OUR SOLUTION

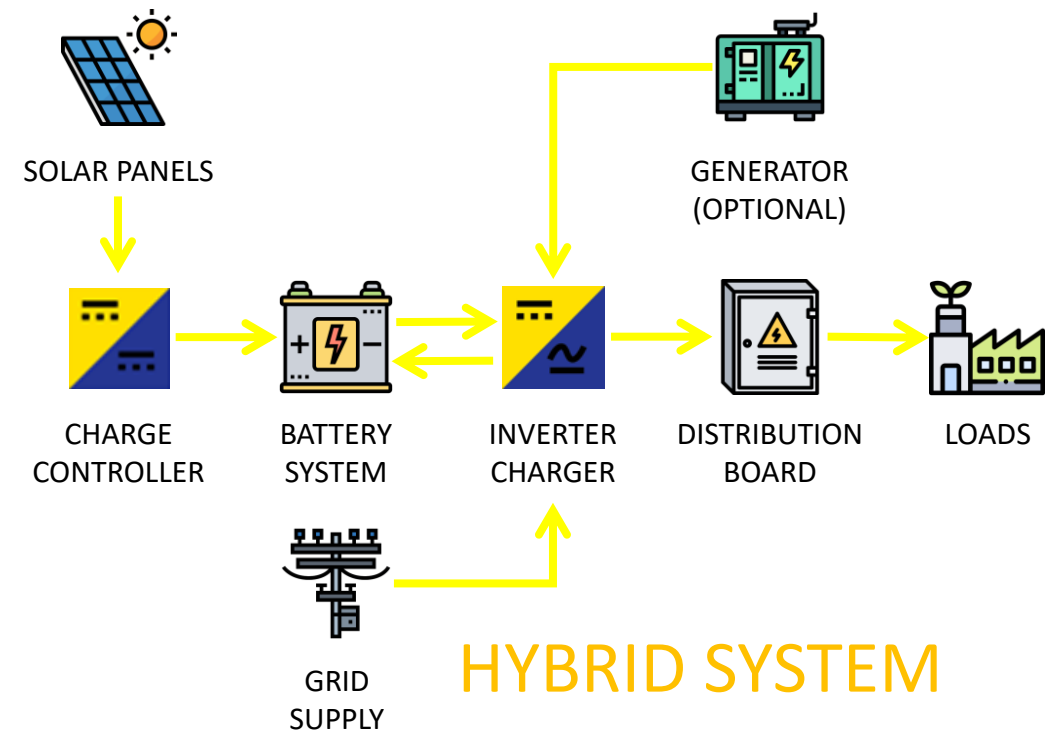

POTENTIAL CHOICES TO OVERTURN THE PROBLEMS

POTENTIAL PREFERENCE

ON-GRID SYSTEM

-  Simple & Convenient
-  Low Investments
-  Short Payback Time
-  High Yield of Savings

HYBRID SYSTEM

-  Independent Power Supply
-  Low-cost Electricity
-  Advanced Energy Mgmt.
-  Overcome Export Limits

STEPS TO YOUR SAVINGS & CARBON EMISSIONS REDUCTION

HOW WE CAN HELP YOUR SAVINGS AND CARBON EMISSIONS REDUCTION?

ROADWAY TO YOUR SAVINGS & CARBON EMISSIONS REDUCTION

THE BENEFIT YOU WILL GET...

LOWER ELECTRICITY BILLS

- Bill Reduction of up to 40%
- Increasing Profits

RETURN INVESTMENTS

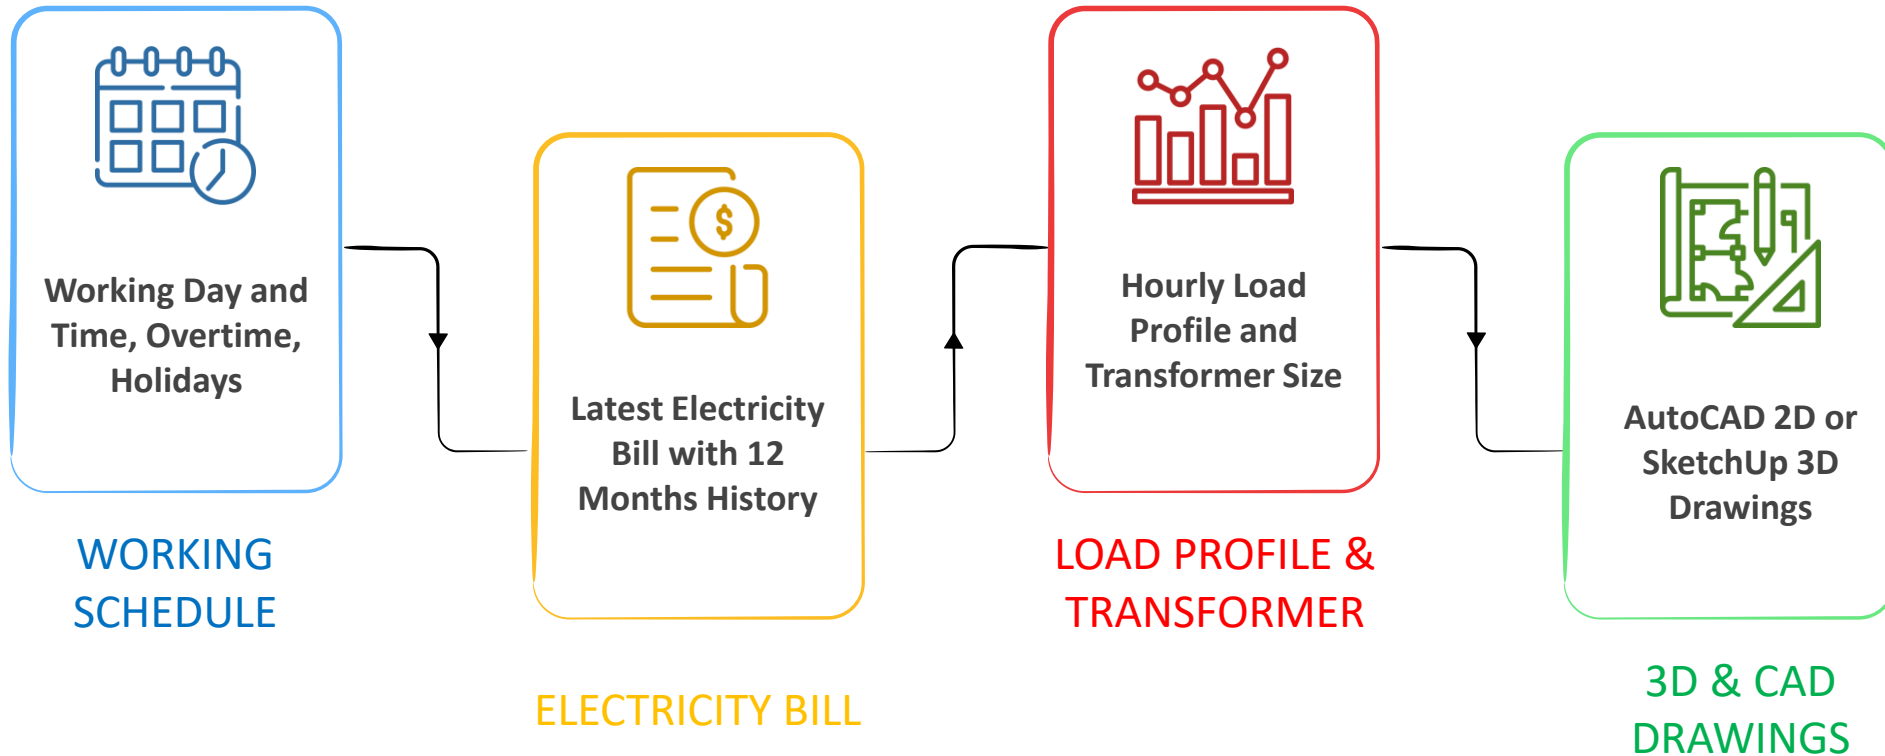

- 4-5 Years of Payback Time
- Secure Power Availability

ENVIRONMENTAL FRIENDLY

- Reducing CO2 Emissions
- Compliant with internal and external requirement

BASIC INFORMATION REQUIRED

ABOUT US

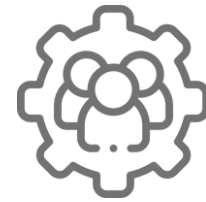

1ST

SOLAR ENERGY COMPANY IN
CAMBODIA SINCE 2006 BY
DUTCH ENGINEERS

100%

TAX-COMPLIANT CLEAN
BUSINESS WITH ANNUAL
AUDITED ACCOUNTS

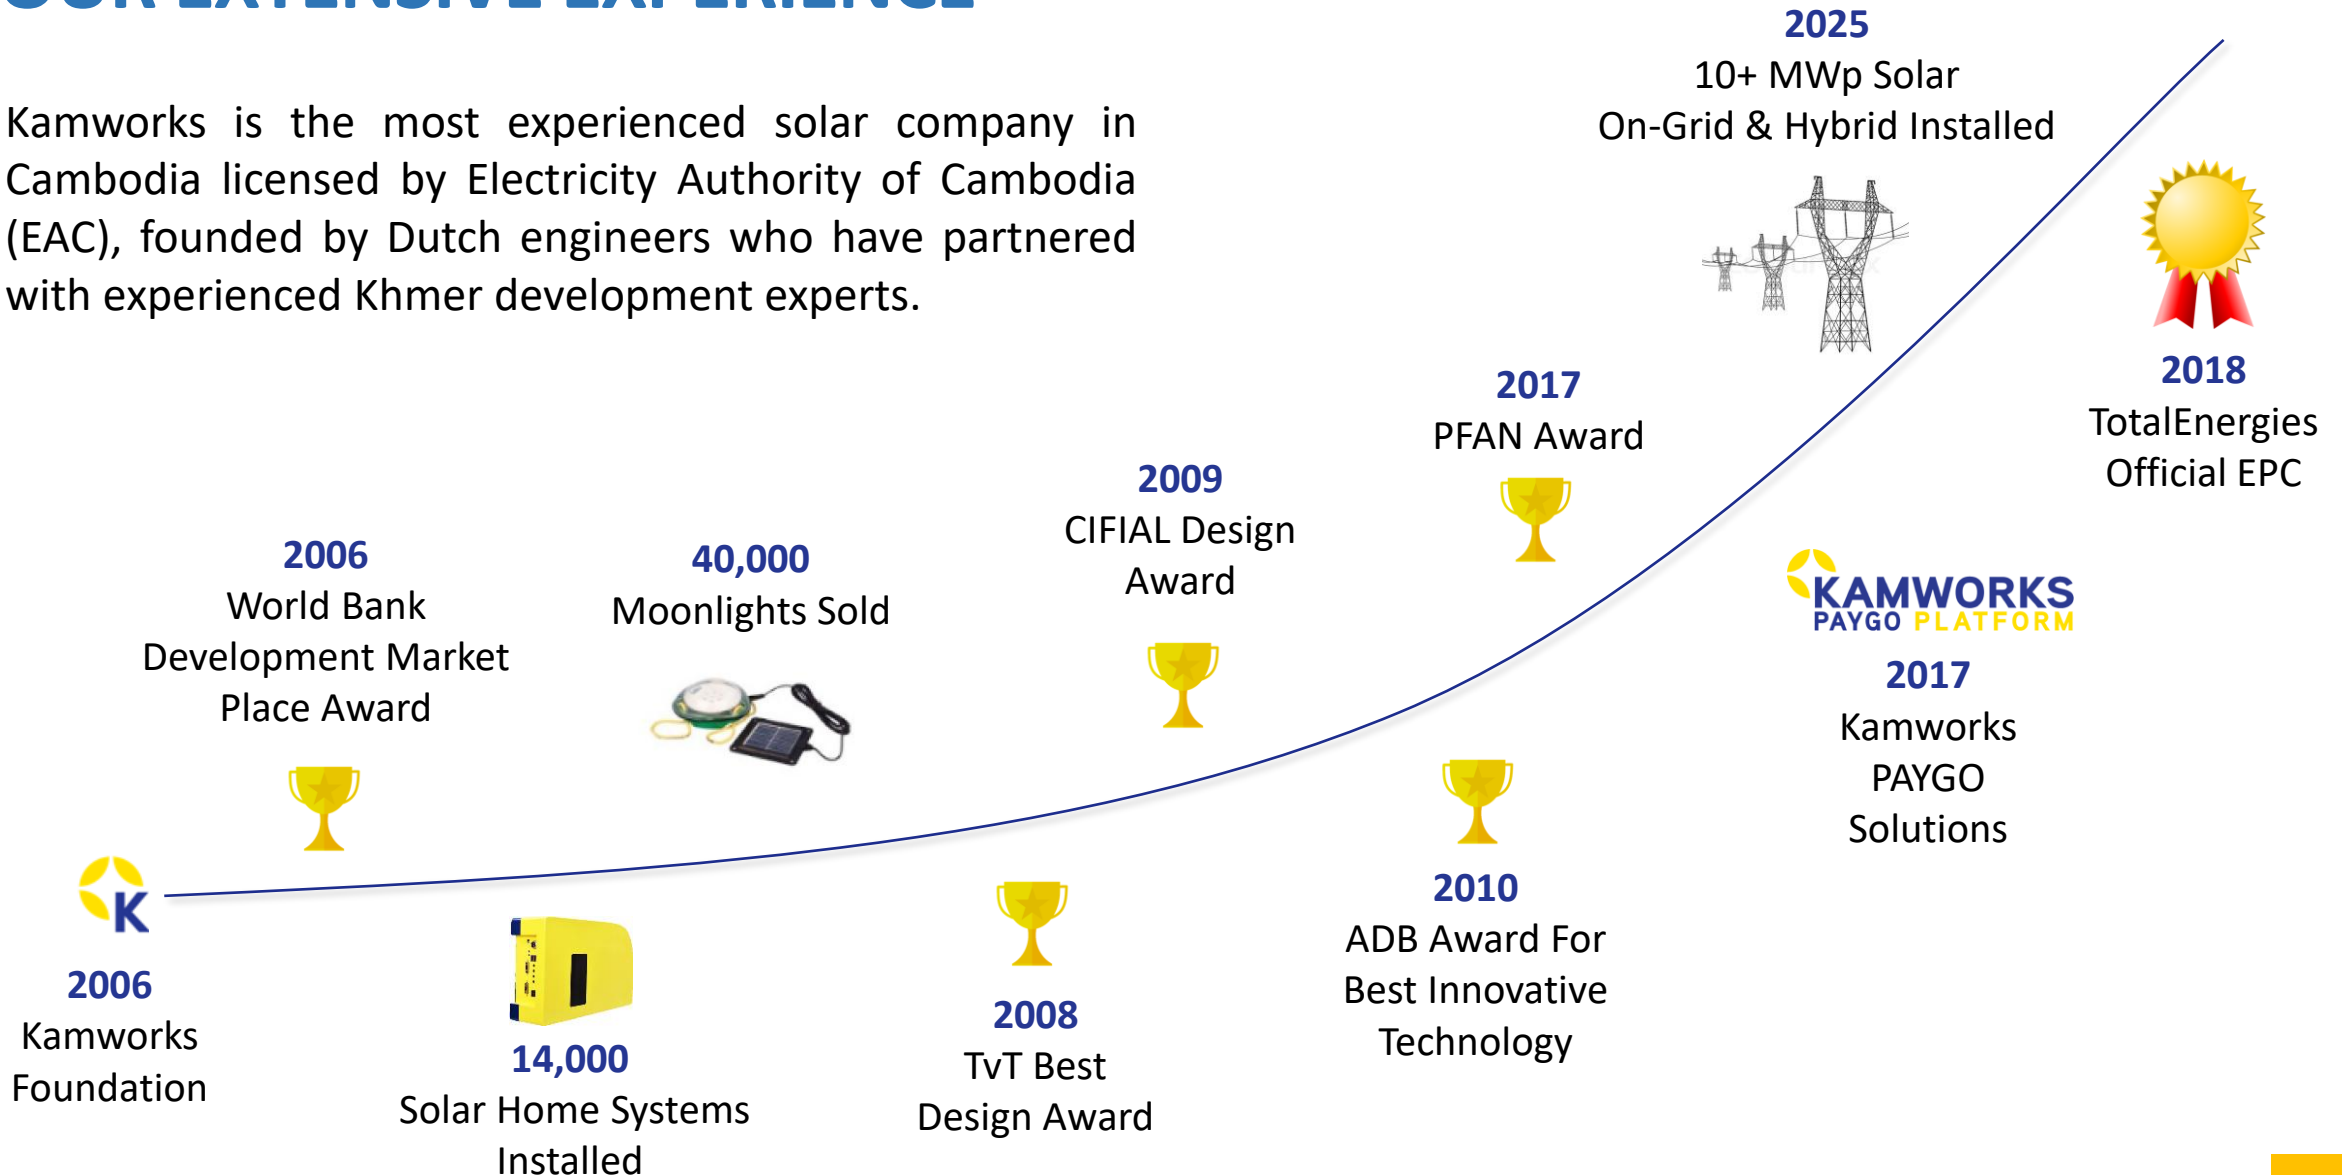

50+

COMBINED YEARS OF
EXPERIENCE IN SOLAR ENERGY
WITH TRUST

OUR EXTENSIVE EXPERIENCE

Kamworks is the most experienced solar company in Cambodia licensed by Electricity Authority of Cambodia (EAC), founded by Dutch engineers who have partnered with experienced Khmer development experts.

HSE BEST PRACTICE

Work at Height

Certified scaffolding, Full body harness, Double lanyard with energy absorber, Life-line, Skylight cover, Barrier, and Safety signages

Toolbox Meeting: Highlight daily work tasks, high-risk work, and correct use of PPE.

Safety Green Light Check: Highlighting specific high-risk tasks and how to minimize risk while working.

Live Saving Check: Check specific PPE before allowing the team to perform the specific task of electrical work and work at height.

Risk Assessment: Analyze and mitigate hazards and risk

HSE Training

Annually HSE Training

HSE training before starting the project

PREVIOUS PROJECTS

TESTIMONIALS FOR ON-GRID & HYBRID SYSTEMS

GARMENT FACTORY

- **Name** : Reliable Source Industrial (Cambodia) Co., Ltd
- **Size** : 500kWp
- **System** : On-grid (Rooftop)
- **Location** : Phnom Penh
- **Finished** : May 2025

PETROL STATION

- **Name** : 34 TOTAL Petrol Stations
- **Size** : 732.52kWp (Combined)
- **System** : On-grid
- **Location** : Varies
- **Finished** : Sep 2019 - Mar 2025

POWER PLANT

- **Name** : CEL II SIHANOUK VILLE POWR PLANT
- **Size** : 226kWp/270kWh
- **System** : Hybrid (Rooftop ballast-mounted)
- **Location** : Sihanouk Ville
- **Finished** : Aug 2024

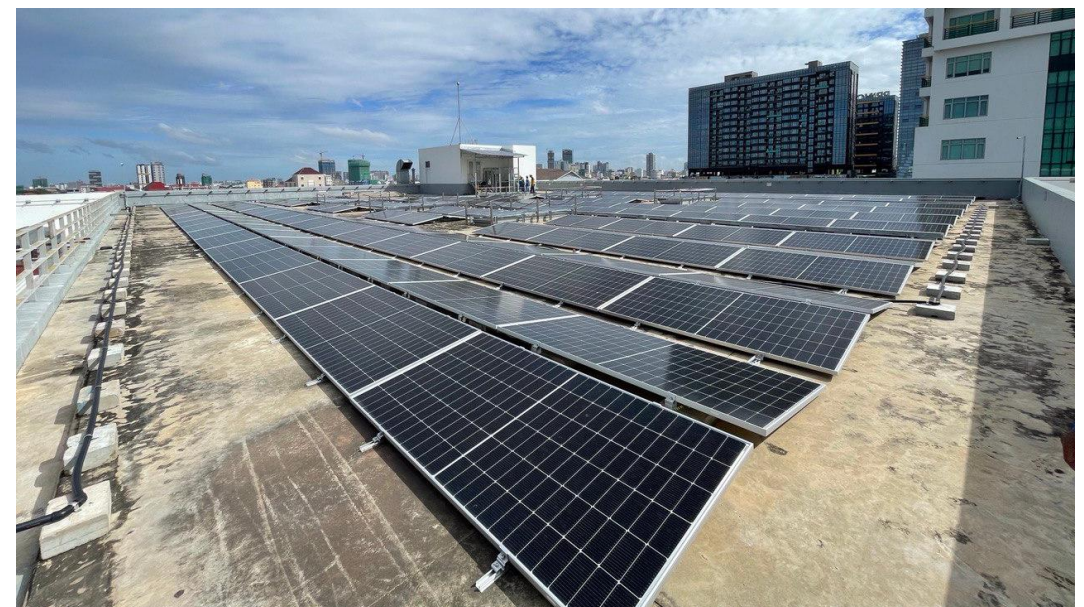

DAIRY FARM

- **Name** : KIRISU FARM
- **Size** : 313kWp
- **System** : On-grid (Rooftop and ground-mounted)
- **Location** : Takeo
- **Finished** : Aug 2024

SHOWROOM & WORKSHOP

- **Name** : TOYOTA CAMBODIA
- **Size** : 138kWp
- **System** : On-grid (Rooftop ballast-mounted)
- **Location** : Phnom Penh
- **Finished** : Nov 2023

SHOES FACTORY

- **Name** : Can Sports Shoes Factory
- **Size** : 1.4MWp
- **System** : On-grid (Rooftop)
- **Location** : Kampong Chhnang
- **Finished** : Feb 2023

INTERNATIONAL SCHOOL

- **Name** : Canadian International School (CIS)
- **Size** : 900.68 kWp
- **System** : On-grid (Rooftop & Ballast-mounted)
- **Location** : Phnom Penh
- **Finished** : Sep 2021

ELECTRONIC FACTORY

- **Name** : SVI (AEC) Cambodia Ltd
- **Size** : 882kWp (404kWp + 478kWp)
- **System** : On-grid (Rooftop)
- **Location** : PPSEZ, Phnom Penh
- **Finished** : Oct 2019 (I) / Mar 2021 (II)

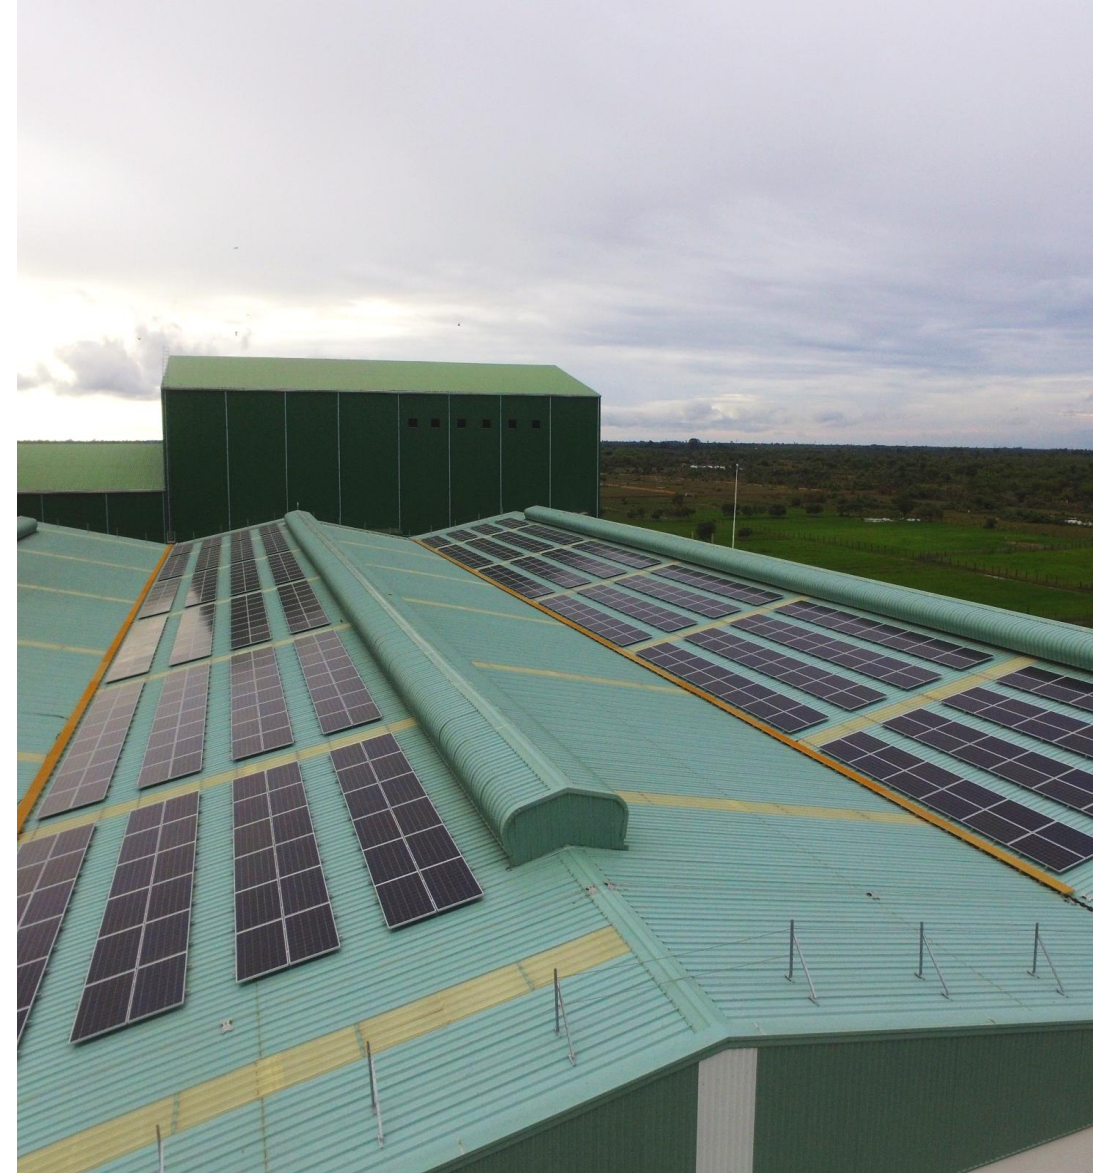

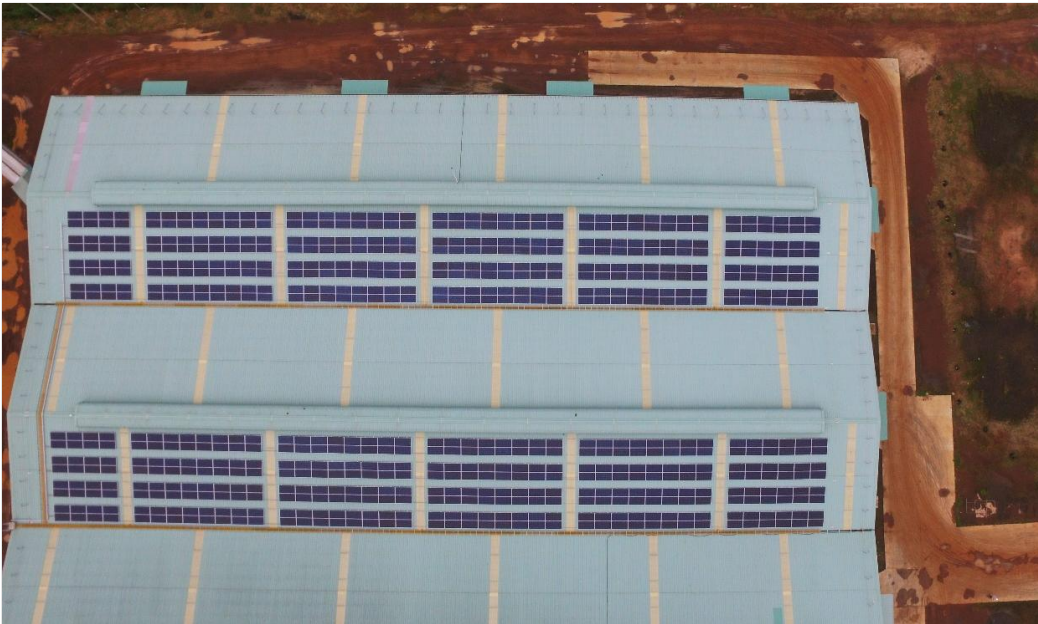

NGO-SCHOOL

- **Name** : Smiling Gecko Cambodia
- **Size** : 228kWp (ground-mounted)
- **System** : On-grid (Ground mounted)
- **Location** : Kampong Chhnang
- **Finished** : Jan 2021

RICE MILL FACTORY

- **Name** : AMRU Rice Cambodia
- **Size** : 262kWp
- **System** : On-grid
- **Location** : Kampong Thom
- **Finished** : October 2020

ON-GOING PROJECTS

WHAT WE ARE DOING NOW

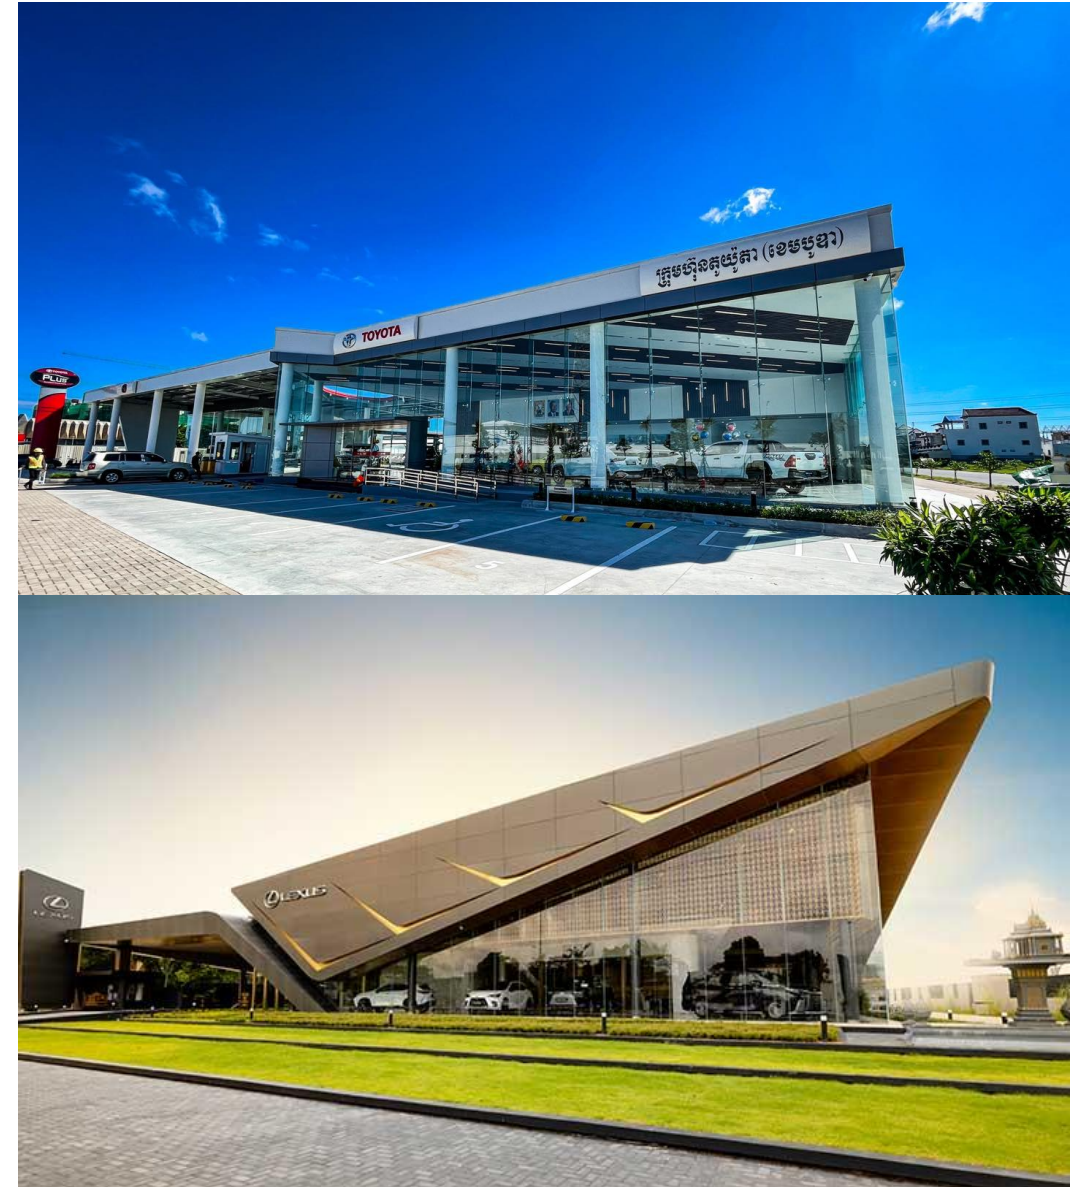

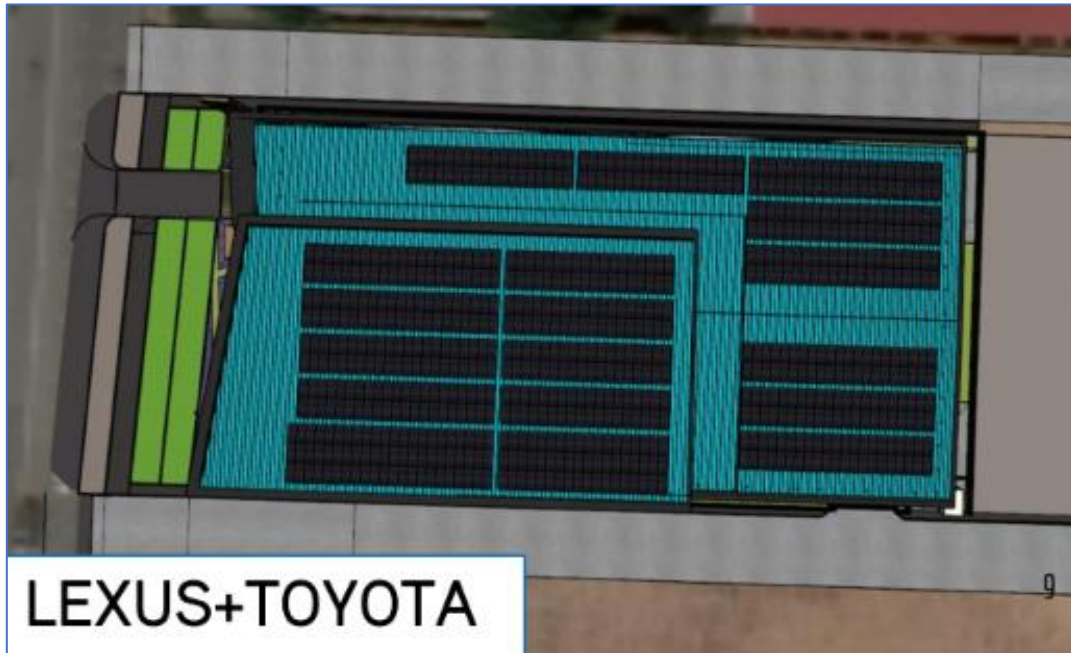

PETROL STATION

- **Name** : 3 TOTAL Petrol Stations
- **Size** : 90kWp (Combined)
- **System** : On-grid
- **Location** : Varies
- **To Finish** : Sep 2025

SHOWROOM

- **Name** : TOYOTA & LEXUS SHOWROOM MEANCHEY
- **Size** : 461kWp
- **System** : On-grid
- **Location** : Phnom Penh
- **To Finish** : Dec 2025
